

Imagine Hypnotics LLC

Client Information and Disclosure

This document contains important information – please take the time to read it.

Dear Client:

At Imagine Hypnotics LLC, we do not practice medicine nor do we prescribe drugs or related treatment. *Hypnotherapy is not intended to be a replacement for medical care.* It is offered as a non-medical, non-chemical, non-invasive alternative to promote change, health and wellness. Those under the care of a physician should not ignore their doctor's advice or treatment for medical problems. Hypnosis cannot, and should not, stand alone as the sole medical or psychological intervention for any disorder. Hypnosis should not be used in lieu of appropriate medical, dental or psychological treatment. Any individual with a medical or psychological issue should first consult a qualified health care provider for diagnosis and professional advice. Consult with your physician before making any changes in his/her prescribed treatment.

Imagine Hypnotics does not work individuals diagnosed with severe mental health issues such as suicidal thoughts (ideation), schizophrenia, major (severe) depression, etc. Such issues must be treated by medical professionals and licensed psychotherapists / counselors.

Regarding Hypnotherapy:

Hypnosis is a profound state of relaxation, focused mind and heightened sensory awareness. Imagine Hypnotics uses client centered techniques to help suggest and achieve specific goals and overcome personal challenges. Under hypnosis you cannot be made to do anything you do not truly desire to do, or anything which violates your moral or religious convictions. The success of the hypnosis process is highly dependent upon the client's level of desire, participation and personal commitment to implement the change they are seeking.

There are times when one hypnotherapy session can be effective in achieving your goal. However, hypnosis is a process and it may be unrealistic to expect lasting results in just one session. Multiple sessions may be required to achieve the desired objectives.

An effective hypnosis session requires a deepened level of trance. To achieve the proper depth of hypnosis the practitioner may utilize deepening techniques which incorporate light touch to the client's shoulder or forehead area. If you prefer verbal deepening only (no touch) please check this box -> []

Imagine Hypnotics LLC reserves the right to record sessions for our records. **All client records/materials are kept secured and confidential.** After your sessions, please take 5 or 10 minutes to relax in the practitioner area. This transitional and reflective period will be helpful to you.

Regarding Billing, Cancellations, Lateness, "No Show" and Miscellaneous:

We accept cash, personal check, credit / debit card and PayPal (www.paypal.me/ImagineHypnotics). *Payment is due upon completion of the client session* unless an alternative payment schedule has been agreed to by our office. If you require alternative payment options or schedules, please contact us and we will do all we can to work with you. *For multi-session therapies like weight management, smoking cessation, etc. the full program price is due upon completion of the first session.* A \$35 returned check fee will be added to any checks returned by the bank.

- **Except for extreme emergencies, cancellations or appointment changes must be made at least 24 hours in advance.** By signing this form, you agree to pay for any missed appointments if the 24-hour advance notice is not properly communicated to our office (phone call or email).
- **Clients arriving more than 15 minutes late will be billed for the entire session and a new billable session will need to be rescheduled.** The lateness policy is necessary to preserve the integrity of the appointment times of other clients and the practitioner.
- **Imagine Hypnotics LLC reserves the right to unilaterally refuse hypnotherapy to anyone at any time.** Anyone under the influence of drugs or alcohol at the time of their scheduled session will result in the session being terminated and charged the full amount of the session.
- **In the unlikely event a session does not complete due to a client block the fee may be adjusted commensurate with the duration of the session** (as determined by the practitioner). *For specialized sessions like past life regression (PLR) and between lives regression (BLR), the client agrees to pay half the session fee if a block occurs (regardless of duration).* Upon client request, a second session can be scheduled with the remaining balance due upon conclusion of the follow-up session. To take advantage of the special PLR/BLR pricing in these situations, the client must schedule the second session within 90 days of the first session otherwise the fee defaults back to the full published price indicated on our website.

I have read, understand and agree to the above information. I agree to hold harmless and for myself, my heirs or assignees, Michael E. Williams, Imagine Hypnotics LLC and any associates, including but not limited to landlords or hosts for any reason as a result of my participation in this program / session. All relevant medical (physical and mental) ailments and concerns have been disclosed on the Client Profile form. The client acknowledges and fully understands *Imagine Hypnotics is not a replacement of nor supersede any client medical or therapeutic care currently in place or in the future.* This Information Disclosure (i.e., Liability Release / Waiver) is applicable to all current and future appointments / sessions with Imagine Hypnotics.
